

Do you see a duck or a rabbit?

Instructions for Optical Illusion Performer

You are performing the Duck - Rabbit Optical Illusion

1. Download and print off both pages – This instruction page is NOT shown on camera
2. Practise holding the 'Duck - Rabbit' page up to your camera so the audience can clearly see it
3. Ask the audience whether they see – a duck or a rabbit?
4. Explain that they should be able to see both a duck and a rabbit.
5. Explain that this optical illusion is called an ambiguous image because it can be seen as both a duck and a rabbit.
6. Conclude by commenting that this optical illusion helps us better understand that sometimes information can be interpreted in more than one way.
